

Dear Pavel Komarek,

We are getting the shipments prepared for the Art Show to be held during Invex at Brno. The below items are ready for shipment now. A second shipment will need to be made once the media and disc synchronizers have been made for the laser players. What will be the latest date that we can ship this second shipment? There may be a small box added to this first shipment but it will not weigh more than 15-20 Kg.

**CRATES**

	height	width	length	weight(Kg)
<b>Laser Players</b>				
2 - 2200s	69 cm	61 cm	64 cm	43
